

Technical Data Sheet

Product Code : 5853 5H

Horticultural Felt

Description : Capillary Matting

Used by growers since 1980 as an indoor capillary matting, this latex-bonded wool felt has excellent durability and water absorption properties. It is proven to last several seasons under normal use and, unlike many alternative products, it will not shrink.

Applications:	Indoor capillary matting
Fibre composition:	Wool/Mixed Fibres/Synthetic Binder
Nominal weight:	646g/m² (+/- 5%)
Nominal thickness:	12.6mm
Roll width:	150cm
Roll length:	25m
Standard roll area:	37.5m²
Water Holding:	2.5 Litres/m² (Approximately) DIN 53923
Irrigation:	We recommend trickle hose or seep hose system – lines a maximum of 60cm apart. Also suitable for overhead water holding systems.
Cleaning:	To minimise growth of algae, matting can be easily cleaned by brushing lightly with a dilute solution of commercial cleaning products such as Citrox (dilute citric acid) or Jeyes Fluid (follow manufacturer's instructions).
