

# AUTOMOTIVE FELT

## Technical Data Sheet

**Product Code** : A3 Adhesive Backed

**Description** : **Sound Dampening Automotive Felt**

This heavy-weight felt, made entirely from recycled fibres, provides cost effective sound insulation.

### Construction

**Fibre Type** : Mixed fibres/polypropylene with an adhesive backing

### Product Performance Characteristics

| Nominal weight      | Nominal thickness | Roll width | Roll length | Standard roll area | FMVSS 302 |
|---------------------|-------------------|------------|-------------|--------------------|-----------|
| 950g/m <sup>2</sup> | 10.0mm            | 1.4m       | 10m         | 14m <sup>2</sup>   | Pass      |

**Facility to supply cut parts as required.**

**Storage** : Store in clean dry conditions preferably off floor level in seal bags. Mildew can occur if felts become damp and unproofed.
